

Fear & Greed Index

What emotion is driving the market now?

[Learn more about the index](#)

The business section of CNN has a little infographic that displays regarding which emotion is running the market. While a line graph is a good way to convey the data over time, it uses a non-describable characteristic (fear and greed) which to the average person, is confusing and thus not such a great visual. Additionally, it also has 2 Y-axes and dull which can cause some confusion on how the graph is read because it makes it difficult.
